

## Speeding Balm for Sick Eyes

Filling tubes with antihistole eye ointment, these three Arab refugees in Beirut, Lebanon, are speeding help to their fellow refugees who suffer from trachoma, a common eye disease in the Middle East. The ointment is being packed at a warehouse operated by the United Nations Relief and Works Agency for Palestine Refugees (UNRWA), which is co-operating with the World Health Organisation in an anti-trachoma campaign in refugee camps. The WHO-UNRWA campaign is reported to be achieving a cured rate of eighty percent.

## A Proclamation

F. P. VARCOE, Deputy Attorney General, Canada

WHEREAS authoritative statistics compiled and published by the Dominion Fire Commissioner show that during the past ten years, five hundred and thirty-nine thousand, six hundred and ninety-seven fires in Canada have destroyed property valued at five hundred and ninety-one million dollars and that during the same period, four thousand and seven hundred and ninety-eight persons have lost their lives and it is estimated that at least fifteen thousand others have been seriously injured as the result of fire;

AND WHEREAS such losses are increasing year by year;

AND WHEREAS humanitarian and economic considerations imperatively demand that human life and material resources in Canada be so far as possible conserved in order that the national prosperity may be maintained;

AND WHEREAS it is desirable that the attention of the public be directed to the extent and underlying causes of the preventable loss of life and property by fire and to the best and most practicable means for its control and that a specific period of the year be set apart and properly designated for the dissemination of such information;

NOW KNOW YE THAT WE, by and with the advice of Our Privy Council for Canada, have thought fit to designate and do designate the week commencing

SUNDAY, THE FOURTH OF OCTOBER, AND ENDING ON SATURDAY, THE TENTH OF OCTOBER

IN THE PRESENT YEAR AS

## FIRE PREVENTION WEEK

and we do recommend to all our loving subjects that at some time during the week as may be found most practicable—

1. All dwellings, public buildings, stores, warehouses, factories, farms, mines and forests be carefully inspected by their occupants and all conditions likely to cause or promote the spread of fire be removed.

2. All theatres, hotels, hospitals, and other institutional buildings be inspected and provision made for all changes necessary to protect the occupants in case of fire.

3. Fire drills be held for the children in all schools, for the inmates of all institutions, and for the employees in all factories, in order that a greater degree of safety be ensured by acquainting the occupants with the best and most expeditious mode of exit in time of danger.

4. Special instruction on the subject of fire prevention be given by the teachers and by municipal officials in the schools and that such appropriate literature as may be made available be distributed to the pupils.

5. Federal, Provincial and Municipal authorities endeavour, by means of public meeting, the press, radio broadcasts, specially prepared motion pictures or otherwise as may to them seem fit, to impress upon the citizens the national importance of protecting life, property and natural resources from loss by fire.

OF ALL WHICH Our Loving Subjects and all others whom these Presents may concern are hereby required to take notice and to govern themselves accordingly.

IN TESTIMONY WHEREOF We have caused these Our Letters to be made Patent and the Great Seal of Canada to be hereunto affixed. WITNESS: Our Right Trusty and Well-Beloved Counsellor, The Honourable Roy Lind say Kellock, a Puisne Judge of the Supreme Court of Canada and Deputy of Our Right Trusty and Well-Beloved counsellor, Vincent Massey, Member of Our Order of the Companions of Honour, Governor General and Commander-in-Chief of Canada.

AT OUR GOVERNMENT HOUSE, in Our City of Ottawa, this thirteenth day of August in the year of Our Lord One thousand nine hundred and fifty-three and in the second year of Our Reign.

By Command,  
W. P. J. O'MEARA,  
Acting Under Secretary of State.

## Wedding Bells

JACKSON — LANG

A wedding of interest to Irma folk took place in the manse of the Jasper Place United church on the afternoon of September 25 at 3 o'clock when Beverly Bertha Lang, daughter of Mr. and Mrs. J. H. Lewis, became the bride of Albert Stanley Jackson, son of Mr. and Mrs. J. Jackson, all of Irma.

The ceremony was performed by the Rev. Hart Cantelon.

Attending the bridal couple were Mr. and Mrs. Eugene Lewis of Fort Saskatchewan, brother and sister-in-law of the bride.

For her wedding the bride chose a navy suit with matching accessories and a corsage of red roses. Her matron of honor wore a grey suit with contrasting accessories and corsage.

Following the ceremony the wedding party motored to Irma where a reception for immediate relatives and friends was held at the J. Jackson home where the bride's table was centred by a four tiered wedding cake which was topped by a miniature Sunburst motor coach carrying two sugar hearts. Later in the evening Mr. and Mrs. Albert Jackson entertained their many friends at a wedding dance in Kiefer's Hall. After a short honeymoon trip they will make their home at Jasper Place.

## THE COST OF RUNNING A CAR

The true costs of running an automobile are "startling," says an October Reader's Digest article. If you drive your car 10,000 miles a year you're probably paying over 10 cents a mile, or more than \$1,000 for this service. That figure may seem high, but it may also serve to point out what's at the root of your budget trouble.

The article divides the costs of running a car into two categories: fixed and operating. Depreciation is the biggest expense. On a car two years old or less, annual depreciation will amount to a flat 20 percent of the purchase price, including all extras and financing costs. On older cars, figure depreciation this way: Consult the used-car ads for average quoted prices for the same model as your own. Say it's \$1,200. Probably that figure is inflated to allow for bargaining, so deduct ten percent, leaving you \$1,080 as the value of your car. Subtract that from the original purchase price and divide the result by the number of years you've had your auto. The figure is your depreciation cost for one year.

If you drive more than 18,000 miles in a year, charge extra depreciation of nine to ten cents a mile for all mileage over 18,000.

Add to fixed costs your yearly premiums on all automobile insurance, and the cost of license fees and property tax on cars if this tax is levied in your area. Then, as a final item of fixed costs, figure the interest, at three percent, which you would draw on the money your car cost if you hadn't bought it.

Operating expenses include gasoline; oil, tires, maintenance including greasing, washing, and repairs. And, the Digest article reminds you to include parking fees, inspection, tools, anti-freeze, a new battery, etc.

"Adding up all costs, the author found he had a figure of \$1,042.28 a year for 10,000 miles of driving. What's yours?" he asks. Anything less, the amount you guessed before you figured it?

## Card of Thanks

We wish to thank those who helped us in every way when we lost our home by wind on July 14. Thanks to everyone.

—Mr. and Mrs. G. Hollar.

## MR. ERNEST HARRISON PASSED AWAY

Irma folk are sorry to learn that Mr. Ernest Harrison passed away in Edmonton at the Veterans' Pavilion on October 5.

Mr. Harrison was born in England 58 years ago. He was a veteran of World War I and had been wounded overseas. For the past several years he had been employed on the A. Fuesko farm and had made many friends in the Irma district. A brother, also a war vet, predeceased him in England two years ago. He is survived by one sister, Mrs. McCauley of New York.

Funeral services were held at Edmonton on Thursday, Oct. 8 with the Canadian Legion in charge. A floral wreath was sent from the Irma branch.

## Kinsella News

Mr. and Mrs. G. Thompson of Britannia Beach, B.C., have been visitors at the home of Mrs. Thompson's sister and brother-in-law Mr. and Mrs. D. Borthwick in the Overleigh district. Mr. Thompson has returned home but Mrs. Thompson will remain for some time.

The schools here are closed for two days while the teachers are attending the teachers convention in Edmonton.

Mr. and Mrs. C. Smogard of Edmonton were week-end guests at the home of Mr. and Mrs. E. Simmons.

A carrot grown in the garden on the farm of Mr. and Mrs. F. Long was reported to be 11 1/2" long, 12" in circumference and 2 1/2 lbs. in weight.

Miss Mary Bilo who has been nursing in the Athabasca hospital spent a few days last week at the Kinsella hotel, the guest of Mrs. J. Kinsella.

Thanksgiving service will be held in the United Church on Sunday, October 11 at 10 a.m.

A tea, sale of home cooking and novelties, sponsored by the local branch of the Royal Purple will be held in the Memorial Hall Saturday afternoon, October 10.

MRS. JILL HUFFMAN

Mrs. Jill Huffman, recently appointed Home Service Advisor for Calgary Power Ltd.

Mrs. Huffman is the daughter of Dr. L. G. Alexander of Calgary and graduated in Home Economics from the University of Manitoba. Mrs. Huffman's duties will consist of home service counselling and advice on the care and use of electrical appliances.

## UNITED CHURCH

Sunday, October 11  
Thanksgiving Services  
Irma Sunday School 10:30 a.m.  
Worship Service 11:30 a.m.  
Special music by the choir.  
Pascendade 2 p.m.  
Thou shalt rejoice in every good thing which the Lord thy God hath given unto thee and unto thine house. Deut. 28.  
H. W. Inglis, Minister.

## ST. MARY'S CHURCH NOTES

Service of Evensong will be held in St. Mary's Church on Sunday, October 11 at 2:30 p.m. All our friends are cordially invited to worship with us at this service.

## Northern Nuggets

We are sorry to report that Mrs. Ivan Currie and Mrs. Red Larson have both been patients in Mannville hospital and Mrs. W. D. Ramsay has been under the weather at home.

Mr. and Mrs. J. Kennedy of Edmonton were guests of their grand-daughter Mrs. H. Barrs on Sunday while down from the city visiting Mr. and Mrs. Jim Kennedy.

The road from E. B. Allen's north to Mannville is very busy now with about 120 trucks hauling gravel up to Highway 16. The crew have set up two camps, one on Allen's farm, the other over on Willie Ramsay's.

Buffalo Coulee W.I. meets on Thursday, October 15 at the home of Mrs. L. Barrs. Roll Call is a Bazaar Donation.

News is very scarce this week. Everyone is taking advantage of the perfect weather to get the threshing and combining done.

## Southern Sayings

Mrs. J. Jackson was an Edmonton visitor this week attending the Ladies Orange Lodge as she is one of the Grand Lodge officers.

The next W.I. meeting will be held at Mrs. Eddie Jackson's. Roll Call, A Decorated Hat and Exchange it. Hostesses, Mrs. J. Jackson, Mrs. A. Spooner. Programme, Mrs. H. Long.

## Glen-Coa Cleanings

We are glad to welcome Mr. John Gullbra home again after his visit to Norway.

We are sorry to report that Mr. P. Nilson is limping about with a sprained ankle and that he will be in hospital for a few days in Hardisty hospital with a bad finger.

All the young people who are away expect to be home for Thanksgiving including P/O John Erickson from as far away as Winnipeg.

Mr. and Mrs. O. P. Larson and family paid a brief visit last week-end to the T. A. Larson home. Mrs. A. Larson is accompanying them back to Brooks.

Who has not rejoiced over the extra fine weather this week has produced?

## ANNOUNCE ENGAGEMENT

Mr. and Mrs. John S. Laing of Theodore, Sask., announce the engagement of their daughter Elaine Elizabeth to Leslie Edward Reber, son and step-son of Mr. and Mrs. E. L. (Roy) Reber of Irma, Alta. Wedding to take place in Sharon Lutheran Church Saturday evening, Oct. 17.

FOR SALE — spring chickens, alive or ready for the oven. These are large birds.—Mrs. J. C. Savard. 9-10p

## Fishing Nets And Threshers Standard Farm Equipment On Many Manitoba Farms

WINNIPEG. — On many Manitoba farms fishing nets rank side by side with threshing machines as standard equipment. A combination of summer farming and winter fishing makes the province both a major wheat producer and fishing ground.

In 1952 there were more than 8,000 part-time winter fishermen. Most of the fishermen engaged in winter operations are wheat farmers who take advantage of the slack times to earn extra money, sometimes almost doubling their incomes.

As a result, Winnipeg now is not only the home of Canada's only grain exchange but is the centre of the fresh water fishing industry in western Canada, handling the Manitoba production as well as neighboring provinces.

The annual catch from Lake Winnipeg alone totals almost 19,000,000 pounds. The total for other lakes in the province, Winnipegosis, Manitoba, Dauphin, Waterhen, and about 50 northern lakes, runs close to 20,000,000 pounds. Production value has increased steadily from only \$1,051,547 in 1923 to the 1952 total of \$7,664,933.

Pickering is the biggest catch, registering 3,956,700 pounds compared with the 3,751,000 pounds of saugers, the nearest rival. Other major catches include bass, bullheads, carp, catfish, goldeyes, mara, perch, pike, suckers, tullibee and whitefish.

The hub of commercial fishing operations is Lake Winnipeg, seventh largest body of fresh water in the world and second to Great Slave Lake as the largest lake lying entirely inside Canadian boundaries. Situated within 50 miles of Winnipeg, the lake is close to major canneries and fish dealers. The lake itself is 258 miles long; from 1 1/2 to 40 miles wide and covers 9,300 square miles.

The valuable fishing resources are protected by the Manitoba government. An army of fisheries department employees, including biologists, make detailed surveys of food supplies, water temperatures, and the spread of disease. One group devotes its time to recording the ages of fish caught every year.

A close check is kept on the number of fish taken from the lakes, and the amount left for breeding purposes. Government radio-equipped launches patrol the lakes.

### Mona O'Hearn Puts on Blue Bonnet — Says It's Finest!

"I rate BLUE BONNET Margarine as the outstanding star among all spreads — regardless of price," says Mona O'Hearn. "You'll agree with this talented Canadian stage, TV, and radio actress. For BLUE BONNET brings fresh, delicate flavor to any food. It's equally good for cooking, recipes, on bread, toast and vegetables. You'll appreciate BLUE BONNET's nutritional value, too. No other spread is richer in year-round Vitamin A! And you'll save dollars on your food bills when you use BLUE BONNET regularly. Available in regular economy packages with color wafer, and in the famous YELLOW QUICK bag for quickest, cleanest coloring. *— Mrs.*

**EXPORT**  
CANADA'S FINEST  
CIGARETTE

tol the lakes enforcing the laws under the Fish Dealers Act.

Operation of eight hatcheries and several spawning camps keeps the province's lakes well stocked for both commercial and sport fishing. Billions of eggs are collected and processed each year. They are allowed to hatch during the winter months and are transported by air to specific lakes in the spring. A process has been developed whereby fertile and infertile eggs are separated, thus saving time and shipping costs.

By arrangement with other countries and provinces, eggs from Manitoba hatcheries and spawning camps are exchanged for a variety of species, including black bass from North Dakota and speckled or lake trout from Alberta.

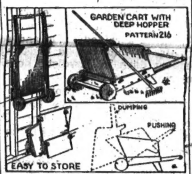

### Alberta Oil Wells Now Total 4,000

Alberta crude oil production during June totalled 6,499,655 barrels, making total cumulative production for the first six months of 1953, 31,721,534 barrels. Production for the first six months of 1952 was 24,865,459 barrels.

During June, 132 drilling rigs were operating, drilling 573,182 feet. New producing oil wells brought in during June totalled 72, making a total of 432 new wells this year. There are now more than 4,000 producing oil wells in the province.

Natural gas production during June totalled 7,384,109 macf, with the total for the six months of 1953, 35,735,533 macf.

### Home Workshop

This cart beats a wheelbarrow in many ways when doing the chores around the homestead at this season. For example, it may be tipped up so that the front rests on the ground ready for leaves to be raked directly into it. The deep spacious hopper is two feet wide and holds a lot of litter, with fewer trips to the compost heap or burning pit. Having two wheels and a broad base it is easier to handle than a barrow. Eight-inch disk wheels would be better than wooden ones. When the garden is cleaned up for the winter just remove the wing nuts and hang the cart in an out of the way corner of the garage. Pattern 216 carries large pictures of the construction routine. Patterns is 35c.

Repairing chairs offers a generous reward to anyone who likes to tinker with tools. Second hand stores often have an assortment of good solid frames that need only to be upholstered and re-upholstered to be like new, such as the modern piece above. And what household does not have a chair or couch with springs that need attention. Pattern 312 gives directions for re-webbing and re-ticking springs; cutting and fitting upholstery fabrics as well as stitching processes, with each step illustrated. Pattern also carries pictures of ten different types of upholstered frames and how to alter them into up-to-date pieces. Ask for pattern 312 and enclose 35c with name and address.

Home Workshop Pattern Service, Prairie Publishers Limited, 4433 West Fifth Avenue, Vancouver, B.C.

In some European countries, people throw fruit instead of rice at weddings. 3057

## Funny and Otherwise

At a popular port all the crew applied for shore leave except one man.

"What's the matter?" asked an officer. "Are you the only one who hasn't a wife in this port?"

"No," replied the exception. "I'm the only one who has!"

Smith is a young lawyer, clever in many respects, but very forgetful. He had been sent to interview an important client, when the head of the firm received this telegram: "Have forgotten name of client. Please wire at once."

The reply was a masterpiece of sarcasm. It ran: "Client's name Jenkins. Your name Smith."

Farmer Jones sent his new boy to the village railway station to pick up a chicken-coop he was expecting.

"Good gracious," shouted Jones when the boy returned, "what do you suppose you've got there?"

"Your chicken-coop, and I nearly broke my back lifting it." "Chicken-coop," roared the farmer. "That's no chicken-coop. That's the station waiting-room!"

"Darling, let's get married." "Why the hurry?" "Well, it would put an end to our being just crazy about each other."

The applicant for a position in the Government service stood before the Board of Examiners. As a final question one of the examiners asked, "What makes you think you are a suitable candidate for a post in the Diplomatic Corps?"

"Because, although I've been married five years, my wife still thinks I visit a sick friend every Saturday night."

He got the post.

Bride-to-be: "We'll have a white wedding, won't we, Sandy?" Sandy: "Yes, if it snows."

A visitor calling on a young married couple marvelled at the speed with which their five children were bathed and put to bed.

"How do you do it so quickly?" he asked. "Oh, it's not too bad," replied the wife. "I wash and Bill wipes."

Bewildered, the guest was staring at the young son of the house, who was driving nails into the dining-room table.

Turning to his host, he said, "It's none of my business, but don't you find it expensive letting him play like that?"

The host smiled proudly. "Not at all," he said. "I get the nails wholesale."

"There's only salmon pail-size left, sir."

"Well, bring me some, please — and ask the orchestra to play The Roast Beef of Old England."

A young commercial traveler set out for the first time to get orders in the West of England. At Plymouth he met an old traveler, who asked him how he had got on.

"Badly," he replied. "I was insulted at every place I visited."

"That's strange," said the other; "I've been on the road 40 years; I've had my samples flung into the street and I've been taken by the scruff of the neck and pitched downstairs; I don't deny that I've been rolled in the gutter; but I've never been insulted!"

A woman visiting the Holy Land went to a tourist office for information on roads. Told that it was now possible to go by car from Dan to Beer-sheva, she confessed, "Do you know, I never knew that Dan and Beer-sheva were places. I always thought they were husband and wife, like Bodom and Gomorrah."

### PEGGY

"Hi, Sandy! Come on! I've got a new recipe for you. It's called 'The Good Left Over'!"

## Sask. Honey Crop Normal

Saskatchewan's 1953 honey crop is expected to be about normal, J. H. Arnott, provincial Apiarist, said.

Mr. Arnott estimated that total production would reach about four million pounds, or about 25 per cent more than last year. This production, he added, is from approximately 33,000 colonies, and although the number is about the same as last year, the average production is expected to be about 125 pounds, an increase of 25 pounds per hive.

The Apiarist said Saskatchewan honey finds a ready market since it is of uniform high quality, and he foresees little difficulty in selling the entire crop by early next year.

### RECORD GRAIN SHIPMENT MADE FROM ST. WALBURG

ST. WALBURG, Sask.—Grain shipped out from St. Walburg from August, 1952, to July, 1953, amounted to 1,046,000 bushels. This is an all-time record for grain shipments from this point.

TRY A NEWS WANT AD

## EDMONTON REPORT

By Donald F. Smith

**EDMONTON**—Signs of concern about the difficulties of the grain marketing situation are beginning to appear in statements and action of farm organization officials and at least one merchants' association.

With elevators plugged with grain throughout most of Alberta and the fact that there is little export of wheat taking place, farmers are faced with the problem of storing it themselves. This, despite there is space in elevators in the three prairie provinces for 340 million bushels.

Grain companies now are urging the producer to increase the storage facilities on his farm.

Farm officials see the problem of storage as among the major difficulties, but also looming is a possibility that farmers are going to have less cash with which to finance harvesting operations, make their payments on machinery and land taxes.

Add to this the warning of the Saskatchewan Retail Merchants' Association that retail credit in that province has almost gone the limit because farmers are not receiving money to pay their bills. This sour note was sounded in a brief to the Canadian Wheat Board last week, urging that steps be taken to put some cash into the producers' pockets.

Officials of the Alberta merchants' association were not available in Edmonton last week to give the picture in this province, but from the comments of officials of farm organizations it appears that the same situation is shaping up here, if it already is not taking place.

It is all too obvious what it could mean to many of Alberta's towns and villages, especially those where wheat is the big crop. Unless some way is found to put some long green into the farm home, there will be less spent at the local stores.

But by all means the province or the prairies are not headed for an economic crisis. The farmers' representatives are not worried about that happening. What would happen, though, is a drop, perhaps even a noticeable one, in the level of prosperity in many communities.

Already the non-movement of grain from country elevators to ocean ports is being felt by workers who have no close contact with farming. The Canadian National Railways announced last week the lay-off of 300 men in locomotive repair shops across the country. Railway officials said it was due to a drop in traffic "emphasized" by the lack of grain shipments.

Despite the \$100 million in grain payments to be distributed by the wheat board starting this month, farm officials say this will be spread pretty thin among average farmers, some of whom may not see theirs until near the year end.

The Saskatchewan merchants suggested two methods of giving the farmer some ready cash in a short time. One is to have the Wheat Board Act amended so that payments can be made for grain stored on the farm.

The second, and this also is endorsed by some farm officials, subject to certain considerations, is to have the banks make loans on farm-stored grain. Storage facilities would have to be inspected to insure there would be no deterioration of the grain.

This was the method used two years ago, when the federal government guaranteed a percentage of the loans made by banks. Farm organizations add two stipulations: 1. A low rate of interest, and 2. Advances as soon as the farmers need them.

Farm organizations are making their representations to the government and the Interprovincial Farm Union Council, representative of farm unions of the three prairie provinces, has presented its case for advances in a brief to the wheat board.

There is a bright side of the surplus situation as far as advocates of good farming practices are concerned. They say it is an opportunity for farmers to begin keeping a year's seed and feed on hand in order to be independent of the next crop should it prove to be a failure.

Another problem, however, is facing grain growers in the central part of the province. Late fall rains, heavy dews and some frost are keeping things damp and the immediate worry is not storage, but getting the grain harvested.

Of every 100 Canadians, 67 speak English only, 20 speak French only, 12 speak both English and French.

In Canada only the federal government may collect indirect taxes.

The average Canadian automobile travels 6,200 miles in a year.

### THE NEW AUTUMN

This time of year used to be one of the main dividing periods, but changes have gradually been coming on. For this, consider holidays from work; it used to be that holidays were fairly well over by autumn, but now, with so many holidays, autumn has lost much of its forbidding distinctiveness as a time of getting back to work.

The return to school, which is a well-known feature of this period, has also altered its complexion to some extent in communities where the new ideas in education are being applied. The nub of these new ideas is that school work should be non-competitive; the youngster who has competed in the summer with his fellows at camp, on playgrounds or the vacant lot or back yard, has a chance now to rest up from life's struggles.

Classroom has become a more relaxed place, except for the teachers. The difference between food at this time of year and other times is now less marked. Along about now the autumn foods school work should be non-competitive; the youngster who has competed in the summer with his fellows at camp, on playgrounds or the vacant lot or back yard, has a chance now to rest up from life's struggles.

## OUR COMPLETE SHORT STORY

## WHILE WOMEN WAIT

By ALICE FISHER

A gathering storm made the hard-rock miners grow restless.

Four women, whose husbands worked the night shift, were gathered to play bridge. The storm would pass easier, together. Three of the women had an odd identical straightness of hip. Around their eyes were fine lines. The fourth, a bride newly arrived, fingered her cards.

"How can you stand this life?" she asked.

Grace glanced up. Poor little thing! She thought. Nella Bentley stared back at the tall dark woman, who seemed as endurable as the land around her. Grace had not always been strong. She had once been slim and soft, but after twice nursing her husband through accidents... She dealt the cards expertly. There was a murmur of bidding, then Nella piped up again.

Dot remarked, "A man can't be a miner and get to his blood. My guess is that your Jimmy wants to stay and not go back to a job in the city."

Grace leaned across. "Nella," she advised. "Take Jimmy away and you'll see the difference. I tried it."

"Grace is right, Nella," said Mabel quietly. "Stop hating things and get to know the country."

"Know the country?" exclaimed Nella. "Don't I already? Worried night! Bears in the bush. I hate it!" Her bracelets jangled as she slipped a card.

Grace sighed. "Of course, it's different from gasoline and dust. But everyone to his choice."

"What you ever noticed the high, clean air?" mused Grace.

"What kind of a game is this?" giggled Dot. "I like wild raspberries and blueberries when they bubble out of my plate."

"Pies — picnic!" exclaimed Grace. "Nella never leaves the town."

"I'm scared of bears," confessed Nella.

Dot laughed. "You'd make a dainty morsel," she teased.

Suddenly the house shook. There was a dull sound of an explosion. "Air-blast!" screamed Nella. "Jimmy!"

"Steady," said Grace calmly. Nella was standing up, her face ashen. "I'm going, I have to know."

She found herself held gently in Mabel's arms. "Quiet," soothed Mabel, "you wouldn't get past the gate." Then she turned to Dot, who sat riffling the cards, her own face white. "Put on the kettle, Dot, it's time for tea."

"Panic, Nella," interjected Grace, "is one of the things you must conquer. This country is full of explosions." But her eyes started to Mabel's, and her cheeks were flushed in the remembering.

The silence stretched out, broken only by Nella's sobbing, and the purring of the kettle. Dot's thin hands set out the cups.

"Bad!" her lips formed the word, as she faced Grace.

"I'll slip away and find out," Grace whispered. "Keep Nella here."

Mabel placed the girl in a deep chair. "Rest a bit," she comforted. "We'll all feel better for a hot drink."

The two women chattered, but finally the question came.

"Where's Grace?" demanded Nella.

"She went for wood," Dot answered hastily. "Drink your tea and rest."

The sky broke, waiting the house with its fury. Dot and Mabel played rummy, the slap of the cards marking off the minutes of the night and the departing storm. Footsteps sounded and a young man came in, his face haggard. Nella opened her eyes. "Jimmy!" she cried. Then she was in his arms.

"Coffee, strong and black," he nodded at the other women.

"Jim," his wife gulped. "The bread —"

"Yes, dear, I have to get back. No I won't let you," she cried.

"Please Jimmy, take me away," Nella, Jim asked, crisply, "have you ever seen a car smash?"

"Sure," she replied. "I was in one."

"All right," he reasoned. "Have you ridden in a car since?"

"Of course." Her eyes widened.

"Be a good miner's wife and get me some food!" he said.

He hadn't told her that Grace was once more at the bedside of her husband, or that five men were still trapped in the mine. She would learn in time.

**Man Who Introduced Goldeye As Manitoba Dish Dies At 72**

WINNIPEG.—Alfred Zansig, 72, a circus personality who performed before royalty but who brought fame to the Lake Winnipeg goldeye, has died in the Manitoba community of Selkirk.

Mr. Zansig, the former maître d'hôtel of the Fort Garry hotel, introduced the goldeye, as a luxury food after somebody said there were no tasty fish in Manitoba.

Mr. Zansig was born in Latvia and, as a circus performer, performed for the Duke of Windsor, Czar Nicholas, the Grand Duke Nicholas of Russia and Kaiser Wilhelm.

In 1914 he started with the Canadian National Railway hotel system at the Macdonald hotel at Edmonton and later served at Minaki and Fort Arthur before coming to the Fort Garry.

**NEW STAMP**—This is the new 50-cent stamp, representing Canada's Textile Industries, which will be issued by the Post Office Department Nov. 5. The stamp, green in color, displays on the left a bobbin from which threads are unwound through an old-fashioned spinning wheel to appear at the right as folded cloth. The design is by P. A. Pollock, Toronto Industrial Artist.

## Believed to Be Record

The following is believed a record in the annals of newspaper publishing: Mr. Chas. W. Venables, the publisher of The Echo, Hamilton, Ontario, is 81 years old, and still on the job.

Mr. Venables states that he is the oldest active printer, as by only one with a record of nearly seventy years of type setting by hand. Away back in 1884 in the Maine town of Newcomb, Ont., he started work at the age of twelve as printer's devil on the "Norwich Gazette" published by Mr. T. C. Bartholomew, at \$1 per week for six months and continued there until 1889, when he went to Toronto and started working for the Murray Printing Company at \$1.00 per week for fifty-four hours a week, ten hours a day for five days and four hours on Saturday. While there he worked for one day (Sunday) for the Toronto Globe, on the occasion of a disastrous fire which threatened the issuing of the morning paper. All printers in Toronto were called to help, and the morning issue was on the stands as usual. (No typesetting machines in those days.)

He came to Hamilton in August, 1896, and started to work on The Hamilton Hustler, published by Mr. Frank Middleton, until it was sold to Mr. James Ross of Rapid City, who changed the name to "The Herald."

In 1890 he started for himself and started to publish "The Hamilton Echo" with Mr. Jas. Collier. After a short time the "Herald" was purchased by the "Echo." Mr. Ed. Stone, of Rapid City, then purchased an interest in "The Echo" which was then published under the name of C. W. Venables & Ed. L. Stone. The printing office was started in the business he resides in at the present time.

Later on the office was moved to its present site, then being published with W. H. Josey as partner until 1950 when his son Freddie joined his father.

Except for brief intervals Charlie has been setting type by hand and is still on the job at the age of 81 years.

## IN ALBERTA

## Diesel Course Offered This Fall

A six weeks' Diesel engine service and maintenance course will be offered this fall at the Provincial Institute of Technology and Art, Calgary.

The course, which is being offered for the first time, will give personnel a short, intensive training in the theory and techniques of Diesel engine maintenance.

Students will receive 120 hours of shop work on such subjects as cylinder re-boring, valve-injecting, testing and re-building injection equipment, and starting and electrical systems. Classroom instruction, totalling 60 hours, will deal with all types of Diesel engines, starting, fuel injection and cooling and lubricating systems, fuels, lubricating oils and horsepower.

No specific educational requirements are needed for entry, although the course is designed to benefit particularly men with experience in the operation and care of Diesel engines.

The course runs from November 8 to December 18. Enrollment is limited, so applications for the course should be made as soon as possible.

**J. C. McFarland Co.****Locals**

Mr. and Mrs. W. Masson were honored by receiving from the Federal Department of State, on instruction of Her Majesty Queen Elizabeth II, Coronation Medals. The message accompanying the medals is engraved on the Royal Stationery and reads: "By command of Her Majesty the Queen the accompanying medals are to be worn in commemoration of Her Majesty's Coronation, June 2, 1953."

Mr. Dave Paul is undergoing treatment in the University hospital this week.

On the afternoon of Sept. 25 a group of ladies gathered at the United Church parlor in order to pack some bundles of warm clothing for the WMS relief effort for Korean refugees. The appeal previously given had been met with generous response and three bundles weighing 220 lbs. in all were sorted and packed. Our WMS Supply Secretary Mrs. M. T. Knudson, said the clothing, etc., was of excellent quality and that these were the finest relief parcels ever sent from our organization here. Among the many articles donated were 25 pair of woolen socks knit by Mrs. Ivan Currie. We understand that Mrs. Currie has knit 5 more pairs since the parcel was packed. There will be more parcels to go later we hope. It cost 33 dollars to send the three mentioned above so this effort takes cash as well as clothing but is all most worthwhile.

Mrs. R. D. Smallwood is a patient in Wainwright hospital this week.

The date for the annual W.I. Bazaar and Tea has been set for Saturday, November 21. Miss Shirley Holms our District Home Economist, will speak in the Lunch Room of the Irma School on the evening of October 13. Her subject will be How to Make a Bazaar a Success. This address is sponsored by our Irma W.I.

Will all Irma W.I. members who are doing fancy work or sewing please plan to hand in all work at the November meeting.

The Rev. Emanuel Huer of the British and Foreign Bible Society will be in Irma on Oct. 14. He will show colored motion pictures concerning the work of the Bible Society. Mr. Huer is an old friend to many of us here and the fine quality of his colored films is always much enjoyed. Everybody welcome.

Mrs. O. Lovig, Dell Smith, J. Jackson, C. Pyle and R. Herbert motored to Edmonton last week to meet Mrs. Erskine the Most Worshipful Grand Mistress of the LOBA for British North America who was in Edmonton at that time for the purpose of meeting representatives of the Northern Alberta LOBA branches.

Born to Mr. and Mrs. A. D. Glasgow at the Royal Alexandra hospital, Edmonton, on Monday, October 6, a son.

Mrs. Leo Thurston and small son from Ashmont spent a few days last week at the F. T. Thurston home here. The Rev. Leo Thurston and his family expect to go to Mayerthorpe shortly to take charge of the work of the Anglican church.

Mrs. Mikkelsen who was taken ill when returning from Edmonton recently has made good progress at the Viking hospital and is now returned to her home.

Mrs. Adam Miles is an Edmonton visitor this week.

Mr. and Mrs. F. T. Thurston visited at the home of their daughter Mrs. Geo. Pugh of Hope Valley on Sunday last.

The Rev. H. W. Inglis, Mrs. Martin Enger and Mr. I. S. Reeds attended a meeting of the St. Paul Presbytery at Lloydminster on Tuesday of this week.
